When life's autumn comes, women, worn out by the burdens of motherhood, yet shrink from that second change of life which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness. Such fears are largely unwarranted by the effects which this change produces in many women. But no woman need let these fears fret her. Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feeling as do other women. This fact is due to the influence of the general health of the system, which is maintained by the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drudgery, and inflammations which sap the vitality, the change of life is made a period of rest, and the woman is enabled to enjoy life.

TO CURE ANY DISEASE.
The Cause Must be Removed, Same Way With Dandruff.
Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is in this scientific basis of destroying the dandruff germ. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good," will not do the work of genuine Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. F. E. PRINCE LOUIS AS HOST.

Admiral Prince Louis of Battenberg became host last night and in return for the hospitality which was showered upon him during his stay in American waters gave a magnificent dance on board his flagship, the Drake, at New York.

The thousand or more invited guests included officials and society people in Annapolis, Washington, Baltimore and West Point, as well as in New York. Fortunately not all of this number came, or standing-room even in the vicinity of the Cunard pier, alongside of which the flagship is berthed, would have been at a premium.

For three days past the work of inclosing the whole ship in canvas and transforming the interior into a fairland of colored flags and red, white and blue electric lights has been in progress.

At the entrance of the long pier floated a tremendous British flag. Passing through the doorway, half way down the pier, the guests saw a curtain of red, white and blue bunting inclosing the supper room, which occupied the other half of the pier. Shut in with heavy canvas, the interior was all aglow with the light from the festoons of red, white and blue electric bulbs strung from the center of the roof, which was formed by a canopy of bunting. Between the round tables, aglow with red-shaded candleabra, were banked evergreens and palms.
Just outside the supper room was the gangway, by which the guests went aboard the Drake. The entire ship was inclosed in heavy canvas. Coming over the side the guests passed along the port side to the quarter deck, where Prince Louis received. The tented walls of the after deck were hung with the flags of the nations, and the Stars and Stripes and the Union Jack were everywhere intertwined.

The vacant spaces between these national emblems were covered with the many-colored ship signal flags. Overboard a red and white striped canvas roof glowed softly with light from garlands of electric bulbs, winding in and out of the folds of bunting. From the quarter-deck the guests passed up a stairway banked with flags to the Drake's famous Squadron, the pride of the Second Cruiser Squadron and the wonder of every guest at the ball.

Looking up—for that was what all did as soon as they reached the ballroom—the guests saw that this magic scene was covered by stars and stripes. From the center of the boat deck shone the stars of the original thirteen States, made of little electric lights on a field of blue bunting. From this central point were draped, tent fashion, the red and white stripes of this mammoth American flag. Beneath this firmament of the Star Stripes stretched the polished ballroom floor, built across the entire boat ship's and extending aft to the last of the Drake's four funnels, affording room for more than 200 couples. Rising from the floor to meet the canopy roof were walls of bunting and ships' flags.

At regular intervals around the walls were American and British flags, draped fan shape, and in between were round-framed mirrors. These mirrors were really the reflectors of the ship's powerful searchlights framed in inflated life buoys. A diver's uniform, inflated, stood at the end of the deck holding a basket of dance cards on the extended right arm.

Through this wonderful garden of color strolled nearly 1,000 guests. Prince Louis's guests, the officers of the first squadron and the fourth division of the third squadron of the North Atlantic fleet and their families, headed the list. These included the commander-in-chief of the North Atlantic fleet and Mrs. Robley D. Evans, and the Misses Evans; Rear Admiral Davis, commanding the second division of the first squadron, the officers of his staff, Rear Admiral Brownson, commanding the fourth division; Mrs. Brownson and Miss Carolyn Brownson and the officers of the Admiral's staff; Capt. J. E. Pillsbury, chief-of-staff of the North Atlantic fleet, and the other officers of Admiral Evans' staff, the commanding and wardroom officers of the Maine, Missouri, Kentucky, Kearsarge, Alabama, Illinois, Iowa, Massachusetts, West Virginia, Pennsylvania, Colorado, Maryland, Mayflower, Yankton, Brooklyn, Potomac and Hancock; Rear-Admiral Sigbee, commanding the second squadron; Rear-Admiral Coghlan, commandant of the New York navy yard, and the officers on duty at the yard.

Others present were General Wade, Brigadier-General Grant and the officers at Governor's Island, and Brigadier-General Mills, many of whom were accompanied by their wives; the Governor of New York, the Mayor of New York and Mrs. McClellan; Mr. and Mrs.

Terrific Race With Death.
"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at E. S. Leadbeater & Sons' drug store; price 50c.

Social Tragedy

Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

A few hours later the distinguished physician told her anxious husband that she was suffering from an acute case of nervous prostration brought on by female trouble, and hinted at an operation. Fortunately a friend advised her to try

Lydia E. Pinkham's Vegetable Compound
The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

DEAR MRS. PINKHAM:—I was troubled for eight years with irregularities which broke down my system and brought on extreme nervousness and hysteria. I could neither enjoy my meals nor sleep nights, became easily irritated and nervous and very despondent. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. After taking the third bottle, my general health began to improve. At the end of the fifth month I was well and could attend to my household and social duties and enjoy life.

Mrs. CHESTER CURRY, 42 Saratoga Street, East Boston, Mass.

Mrs. Curry, whose portrait appears on the right, is the leader of the Ladies' Symphony Orchestra. The following letter is from Miss Goode, President of the Bryn Mawr Lawn Tennis Club of Chicago:

DEAR MRS. PINKHAM:—I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unseasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to get out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since.

Miss CORA GOODE, 355 E. Chicago Ave., Chicago, Ill.

Mrs. Pinkham's advice is free to all. Her address is Lynn, Mass.

WEDNESDAY EVENING, NOV. 15, 1906.

A UNITED STATES SENATOR is authority for the statement that H. H. Rogers, of the Standard Oil Company, will probably be summoned before the bar of the Senate this winter in consequence of charges made by Thomas W. Lawson, in his last installment of "Frenzied Finance." Lawson himself and Senator William A. Clark, of Montana, will, it is said, also be called on to tell the Senate what they know regarding the truth of the former's charges contained in the article mentioned. These charges affect more than half the membership of the Senate as it stood three or four years ago. Briefly, the Lawson allegations are that after Senator Clark had been re-elected to the Senate by the Montana Legislature, subsequent to the contest which led to Clark's resignation of his senatorial seat to avoid expulsion, H. H. Rogers went to him and insisted that he should take steps to have stopped the fight which Augustus Heinze was making on the Standard Oil crowd in Montana. Clark is alleged to have refused to attempt what Rogers asked. Then Rogers is said to have threatened that if Clark did not comply with his request he would have him expelled from the United States Senate, notwithstanding his recent re-election by the Montana Legislature without even a show of opposition. Senator Clark is said to have laughed at this threat of the Standard Oil magnate. According to the Lawson story, Rogers proceeded to show Clark documents in which more than a majority of the members of the Senate had committed themselves to vote for the expulsion of Clark from his seat. On this showing, according to Lawson, Senator Clark agreed to stop the Heinze fight on the Standard Oil crowd in Montana and his efforts were successful. The Senator alluded to at the beginning of this paragraph says that Thomas Lawson's charges were so circumstantial and grave that Senator Clark would be compelled by the Senate rules to take notice of them when the Senate met by rising in his place and making an explanation as a matter of the highest privilege. Whatever his explanation might be, it is declared that the Senate will be forced to make an investigation and that Rogers and Lawson will be summoned before the committee on privileges and elections to give their version of the affair.

ALLEGING that her husband, because of jealousy, kept a bulldog chained to the only door of her home, so that she could not get out, and so that there would be no danger of men seeing her when he was away, a woman of York, Pa., formerly of Emmetsburg, Md., where the affair took place, yesterday secured a divorce from her husband. Such a rude method of finding out "who's been here since I've been gone" was evidently considered by the court too drastic in these advanced times of freedom of action and therefore good and sufficient cause for a divorce; besides, the judge may have had some consideration for the seats of the trousers of luckless men who might have been attracted to the house by the dog.

COUNSEL for U. S. Senator Burton, of Kansas, who was indicted by the federal grand jury in St. Louis last Friday, has filed a demurrer to the indictment. If the demurrer be sustained Senator Burton will be acquitted, as the statute of limitations in his case causes the time during which he may be tried to expire on November 18, and no other indictment may be returned after that date. Mr. Burton is hard-pressed and is grabbing at straws, but there was a time in the history of this country when a Senator would not have dared take advantage of a "fluke" to save himself from trial on a charge of violating the law he swore to maintain.

It is reported that Secretary Shaw will settle the political supremacy of Iowa by becoming a candidate for Governor against Gov. Cummins next year. The Cummins people will never support Shaw for President, and as Iowa stands now, could keep Shaw from getting the delegation. Shaw appreciates this and, it is said, will test Cummins' strength in an open battle. He believes that victory would put him in command of Iowa republican politics. Mr. Shaw is a wily politician and will give President Roosevelt considerable trouble in the latter's plan to make Secretary Root his successor.

A NUMBER of Americans now in the Isle of Pines, have seceded from Cuba and now declare the island to be United States territory. A letter has been sent advising President Roosevelt of the action of the Americans and stating that a delegate will be sent to Washington. This is evidently another Panama affair and it is hoped for the credit of the United States that no officers of this country are mixed up in what will probably be another scandal.

Publication of a list of the 4000 city jobs to be vacated by republicans under the new democratic administration in

Cincinnati has revealed surprising padding. On the payroll of the workhouse are three musical directorships, each getting \$2 a day. Music has not been taught or allowed there within the memory of living persons.

From Washington.

(Correspondence of the Alexandria Gazette.)

Washington, D. C., Nov. 15.

Secretary Taft declares that he is not contemplating relinquishing the management of the Philippine Islands. While he was on his Isthmian trip a report was circulated that Secretary of State Root was to be given jurisdiction over the affairs of the archipelago. "That story," said Secretary Taft, "originated in the brain of the man who wrote it. There is no foundation whatever for the suggestion." Mr. Taft was the first caller at the White House this morning, coming to give the President a report of his trip to the Canal Zone. "We had a very pleasant trip except a couple of days on the return trip when we met some weather which tested the stability of our weather apparatus." Secretary Taft will leave here on Friday afternoon to go to St. Louis and Kansas City. He will address the Commercial Club of St. Louis, Saturday night upon the Panama Canal, and on Monday will address the business men of the city upon the Philippines. The Chinese Minister called at the State Department this morning and announced the receipt by him of a dispatch from the Viceroy of Canton regarding the recent killing of five American Presbyterian missionaries at Lien Chau in that province. He said that Dr. Macfie and Miss Patterson, who escaped the massacre, have arrived at Canton bringing a full account of the incidents which led to the unfortunate affair. They reported that the Chinese of the town were having a fair near the Presbyterian hospital and mission. One of their buildings trespassed upon the mission grounds. In it was a sacred cannon that was being fired at intervals, supposedly to scare away the evil spirits. The missionaries sallied forth and seized the cannon which action was resented by the Chinese who in their mad rage proceeded to murder all of the missionaries who they could reach.

Secretary of War Taft, who returned to Washington this morning from his visit to Panama, says that he was very greatly impressed with the progress and the many improvements in the canal zone which have been made since he was last there a year ago.

The Department of Justice has completed the preparation of its answer to the plea in bar recently filed by the Chicago packers in the action for conspiracy in restraint of trade begun against them by the government.

A story of gained circulation here that Speaker Cannon will have a rival for speakership honors in the caucuses of republican members of the House, which will be held at the opening of the session of Congress on December 4. It is said that Representative Burton, of Ohio, who was chairman of the rivers and harbors committee in the last Congress, contemplates shying his castor into the ring as a candidate for the speakership against Mr. Cannon, with whom he has not been on the best of terms. Mr. Cannon called at the White House this morning to talk over general matters with President Roosevelt. There is no doubt of his re-election.

Secretary of War Taft will leave Washington on Friday afternoon for St. Louis where he will make an address Saturday night before the Commercial Club on the Panama canal. He will go thence to Kansas City, where he will speak on the Philippines.

A delegation of the leading shoe, hide and leather manufacturers of the country, headed by Gov. William L. Douglas, of Massachusetts, waited on the President this morning to ask that he urge Congress to remove the duty on hides. Many of the members of the delegation were in favor of asking also for the reduction of the duty on sole leather, but at the last minute it was decided to confine the request to the removal of the duty on hides. President Roosevelt made the shoemen a brief speech after they had presented their arguments and told them that he was heartily in favor of any revision of the tariff which would result in the general good of the people. The matter of tariff however must be left to Congress to settle and he could do no more in the premises.

It is reported that the forthcoming annual message of President Roosevelt will be probably the most important ever written by him. So freely has the President discussed his various policies with the members of his Cabinet, Senators and Representatives and other callers, as well as in his public speeches, that it is possible to present a fairly accurate forecast of the leading features of the message. The document is now in type and the President is going over the proofs. By the latter part of next week it will be in shape for final print and then will be distributed in advance to the daily papers of the country through the medium of the press associations, under pledge that it will not be published until sent to Congress. Some time ago the President declared to one of his senatorial callers that he considered the matter of railroad rate legislation

to be the most important subject for discussion by Congress at the coming session. And he will not be satisfied with mere discussion. He will insist upon legislation. He will insist in his message that Congress should take an administrative body of men—either the Interstate Commerce Commission or some other—which shall have the power to fix a reasonable rate in place of one found to be unreasonable and discriminating, such new rate to go into effect within a reasonable time, subject to review in the proper courts. So desirous is the President for adequate legislation on this subject that he will, for the present at least, not insist upon modification of the tariff. In the matter of insurance legislation, the President is expected to go much further than he did in his last message, as he feels that the time has come for the government to assume some sort of supervision over this branch of business. Incidentally, it is likely that he will have some interesting things to say on the general subject of graft and frenzied finance. He will also urge the ratification of the Santo Domingo treaty, and recommend an immediate appropriation for the prosecution of the work on the Panama canal. The anti-American boycott in China will furnish the text for an interesting chapter of the message. The President will ask for such modification of the Chinese exclusion laws and such provision for their administration as will insure to all Chinamen, excepting the coolie classes only, the same right of entry into this country and the same treatment as is guaranteed to the citizens of other countries. He will also advocate the improvement of our diplomatic and consular service. There will be a chapter upon contemplated reforms in governmental administration. It is probable that the creation of a general purchasing office for supplies will be among the innovations recommended. He will probably suggest the appointment of an international Canadian-American commission to cope with the problem of preserving Niagara Falls. The message will contain the usual recommendations for the betterment of our military strength, particularly on the seas. Our foreign relations will be thoroughly reviewed, especially those connected with the Central and South American Republics.

Fifteen car loads of horses arrived at the Benning track from New York and Pimlico yesterday, and from now on will come in as fast as they can be unloaded. The first big race of the meeting tomorrow, in which Bad News carries the heaviest impost.

In his annual report made public today, Brigadier General Samuel M. Mills, chief of artillery, U. S. A., strongly emphasizes importance of preparing a perfect coast defense. General Mills recommends increased appropriation for armament so as to permit target practice at least three times a year; separation of the coast and field artillery; provision for submarine mine defense; increase of the coast artillery; adequate pay for technically skilled; enlisted men; examination for promotion of artillery officers in all grades.

Senator Cullom, of Illinois, and Representative Curtis, of Kansas, introduced a large delegation from Oklahoma and Indian Territory to the President at the White House today. The visitors from the territories and Indian Territory stated and told the President that at the non-partisan joint statehood convention held at Oklahoma City on July 12 unanimous resolutions were passed favoring the idea. The President told his callers that he was heartily in favor of granting them the favor asked and intimated that he would so recommend in his forthcoming message to Congress.

Secretary of War Taft today, in response to the suggestion made by certain republicans in Ohio that he assume the leadership of the party in that State, authorized the statement that he was out of politics and would not deeply engage himself in his work here to even consider the matter.

VLADIVOSTOK ABLAZE.

Prevalence of Looting and Incendiarism—City Threatened with Famine. St. Petersburg, Nov. 15.—A dispatch which has been received from Vladivostok says that the whole town and the port are now ablaze. The greater part of the place has already been consumed. The situation today is desperate. The mobs are in practical control of the town, and the looting which has marked the progress of the outbreak continues unabated. The rioters likewise continue to fire buildings and the flames are spreading rapidly. To make the situation worse, the food supply is growing short and the necessities of the city. The vessels in the harbor are crowded with refugees, who are afraid to remain on shore.

During the first day of rioting, 300 rioters, mostly sailors and artillerymen, were killed or wounded. As yet, however, individual citizens have not been molested.

Board of Censors.

New York, Nov. 15.—When the Board of Censors of New York county met at 10 o'clock this morning to begin the canvass of the vote cast at the recent election Chairman Doull announced that he had been served with an order, issued by Supreme Court Justice Amos, to show cause in court at 10:30 this morning why the original tally sheets should not be produced during the canvass. In view of the court proceedings, Chairman Doull ordered a recess until noon. Similar court orders have been issued in the other coun-

ties of Greater New York on the application of the Municipal Ownership League and William R. Hearst. The object, it is understood, is to show discrepancies in the count which will form the basis of an application for a recount of the ballots.

New York, Nov. 15.—The fight of W. R. Hearst to have the original tally sheets produced when asked for while the vote is being canvassed, has been successful. Mayor McClellan's sense of fairness is responsible for the fact that this result was so quickly obtained. Judge Amos issued the order which provides that all the tally sheets shall be produced before the board of canvassers, and that they shall be open for the inspection of the attorneys of both sides. When the decision was announced an adjournment of the Board of Canvassers was taken until tomorrow morning. No irregularities affecting the majority fight have so far been brought to light.

Will Stand Pat

New York, Nov. 15.—Secretary of the Treasury Shaw came to town today. He was accompanied by his two daughters who will sail for Europe tomorrow. The Secretary was asked if he intended to relieve the financial stringency in Wall street by depositing government funds in the national banks here. In reply, he made the following statement: "The fact that I have not decided to increase deposits is proven by the fact that I have not announced any intention to do so. I have never said I would not, and I have never said I would. I am simply in the present tense stand pat with an open mind. No banker has asked me, and no advice from speculators is about equally divided. Some bulls have advised it; some bears have advised against it and every wrecker has demanded that it shall not be done. My daughters sail early tomorrow morning, and as I had some customs matters to look after, I came as usual by night train. I may possibly see a few merchants during the day and ascertain if I can whether the condition of the market is being reflected in business. Should I decide to do anything, everybody will know it as soon as anybody. I shall be controlled by conditions instead of advice, and guesses as to what the Treasury Department will do have been and were unnecessary and ill-advised."

The Kaiser and Poland.

Birmingham, Eng., Nov. 15.—The Post states that it is rumormongered at St. Petersburg that until a week ago the present drastic measures being employed by the government against Poland had not been even contemplated in any event. A plan had already been drawn up by Count Witte specially granting to Poland liberties equal to those enjoyed by Finland under the new regime. The Kaiser became greatly alarmed lest the demand for autonomy should spread to Prussia and Poland, and appealed to the Czar saying he considered the pursuit of the proposed liberal policy toward Poland to be perilous. The German ruler also reiterated his former promise to pour German troops into Poland if their presence should be needed, and it is believed this led to the change adopted in the Russian attitude toward Poland.

National Horse Show.

New York, Nov. 15.—Although over thirty classes have been passed upon and 120 ribbons awarded, all the exhibitors at the National Horse Show in Madison Square Garden seem to be well satisfied with the work of the judges in the several classes. So far no grumbling has been heard among the owners or their assistants, a fact which has been unprecedented during the first two days of any previous show. Up to the present the leading winner of blue ribbon is E. D. Jordan, of Boston, who has six of them to his credit, while Mrs. John Gerken, William Carr and Jay F. Carlisle, are on an equal terms with three firsts each. Among those who have been awarded the blue in two classes is the Piedmont Stock Farm, of Upperville, Va.

Strike Spreading in Poland.

St. Petersburg, Nov. 15.—The strike on account of the condemnation to death of the Kronstadt mutineers and the proclamation of martial law in Poland is spreading slowly. Workmen are not paying as much heed to the call as was expected and the strike may be abandoned. The compositors have held a meeting and decided to join the general strike. It is expected that all the newspapers will shortly cease publication.

Demurrer Overruled.

St. Louis, Nov. 15.—Judge Vandever this morning overruled the demurrer to the third indictment against Senator J. E. Burton, of Kansas, which was filed in the United States Circuit Court yesterday. The indictment was attacked on nine points, all based on the general grounds of insufficiency. The trial has been set for November 20.

City Council.

An average amount of routine business was transacted by the City Council last night.

BOARD OF ALDERMEN.

All the Aldermen were present, and the business was transacted without debate. Mr. Fisher presented an ordinance authorizing the Board of Police Commissioners to appoint special policemen when needed by firms or corporations, the same to draw no pay from the city. The ordinance was passed by a unanimous vote.

An ordinance providing for the erection of show windows on King street was also introduced by Mr. Fisher and adopted by a unanimous vote.

The Aldermen concurred in the action of the Common Council on all papers sent in except a resolution appropriating \$25 for the purchase of a street sprinkler. The board non-concurred with the lower board and referred the resolution to the committee on streets and finance. The Council adhered to their action and asked for a committee of conference, and Messrs. W. H. Sweeney and Ballenger were appointed on the part of the Aldermen. The committee subsequently reported in favor of the Aldermen receding from their action and adopting that of the Common Council. Their report was adopted, and the Aldermen at 9:15 o'clock adjourned.

COMMON COUNCIL.

The board was called to order at 7:55 o'clock. Mr. J. L. Pollard newly elected clerkman from the Third Ward appeared; was presented by Mr. Harrison, and after taking the oath required by law took his seat as a member.

The chair announced some committee changes to be found in the official proceedings. The petition of Mr. Martin Lawler to be relieved of taxes on property in litigation was reported on adversely.

Mr. Bryan thought that to grant the petition would establish a dangerous precedent. The adverse report was adopted.

An ordinance to establish the grade of King street west of Payne street was reported favorably and passed.

An ordinance to repeal the ordinances by which the Washington Southern Railway is required to keep gates, boxes and gatemen on Fayette street, was reported upon favorably by the street committee in conjunction with a new ordinance requiring a flagman or red lantern bearer to precede all trains moving on that street.

Mr. Leadbeater said that the Corporation Attorney had drawn the latter ordinance to secure public protection.

Mr. Hellmuth thought that there were two unnecessary lives to risk to give the railroads two more liberty of movement.

Mr. Leadbeater said that the new ordinance required a flagman to go ahead between the tracks, of every train. As the flagman would have to walk, of course the train would have to move slowly.

Mr. Spinks urged that these proposed flagmen would afford little or no protection to the electric cars, vehicles or persons on the streets.

Mr. Marshall said that in a short time the tracks on Henry and Fayette streets would be taken up and it seemed useless, with such prospects, to take any action on the subject at this time.

Mr. Hellmuth inquired by what authority the gates at the corner of Cameron and Fayette streets had been removed.

Mr. Leadbeater thought that the railway authorities had removed the gates at their own motion.

It was stated that they were now subject to fine.

On motion of Mr. Williams the whole matter was recommitted.

The committee reported adversely on the claim of P. T. Harrington for \$250 for the loss of a horse injured by falling into a street opening.

The application of Hugo Herfurth for leave to extend his new show window at 1012 King street 20 inches beyond the building line was granted on motion of Mr. Marshall.

On motion of Mr. Hellmuth an appropriation was made of \$100 additional for rebuilding the kitchen at the jail.

An ordinance prohibiting the extension of any show window more than 20 inches beyond the building lines and fixing \$50 penalty for each day's continuance of a window beyond that limit was received from the Aldermen and concurred in.

Council concurred with the Aldermen in passing an ordinance authorizing the appointment of 30 private policemen to be commissioned but not paid by the city.

An appropriation of \$800 for the purchase of a street sweeper was agreed to unanimously.

Mr. Leadbeater was convinced that a street sprinkler would be a necessary adjunct to the sweeper and introduced an appropriation of \$25 for a street sprinkler.

The chair inquired what provision had been made for the operation of the sweeper and the sprinkler.

Mr. Leadbeater presumed that horses would be provided, or a contract for sweeping and sprinkling might be made.

The appropriation was agreed to.

The committee on streets &c., reported in favor of an appropriation of \$350 to put in cobble gutters and brick centers on King street from Peyton street to the corporation line.

Mr. Pollard doubted if the work proposed would be permanent and if not permanent it would be a useless expenditure. He favored improvements but thought this work might be deferred till the street was properly improved.

The chair thought that as the grade had now been fixed this work could be made permanent.

Mr. Leadbeater said the work proposed would probably be temporary only but it was an absolute necessity for the coming winter and would certainly stand until better work replaced it.

Mr. Spinks favored the appropriation as did Mr. Bryan and Mr. Williams.

Mr. Pollard saw no economy in temporary work like this.

Mr. Strauss said necessity needs no law and this need was now upon us.

Every ounce of food you eat that fails to digest does a pound of harm. It turns the entire meal into poison. The appropriation was made, year 14 nos 1 (Mr. Pollard).

The Alexandria Transfer Company asked permission to extend its sheds, &c., on Lee street north of Fayette alley; referred.

An appropriation of \$75 for gutters on the west side of Lee street south of Franklin street was explained by Mr. Snowden and passed.

Notice was received from the Board of Aldermen of a non-concurrence on the subject of a street sprinkler, &c.

A committee of conference, Messrs. Williams and Bryan, was appointed, and after a recess Mr. Williams returned and reported that the Aldermen had receded and agreed with Council.

A communication from the Clerk of the School Board announcing the expiration of the terms of trustees Thompson, of the First district; Jones, of the Second; Bryant, of the Third; and Carter, of the Fourth, was read, and a messenger was sent to invite the Aldermen to a joint convention to fill the vacancies. The messenger returned and reported that the Aldermen had adjourned and Council also adjourned.

The joint committee on finance, general laws and light made no report on the proposition to lease the electric franchise.

Secretary Andrade today expressed gratification when shown a Washington dispatch which stated that there was no sympathy with the movement in the United States.

Convicted of Petit Larceny.

[Special Dispatch to the Alexandria Gazette.] Richmond, Va., Nov. 15.—Mary Walhall, the young white woman charged with shoplifting, was convicted in the police court today of petit larceny and held as a suspicious character. She was given four months in jail. The woman had in her possession nearly \$500 worth of fine new goods, much of which was identified by Richmond merchants, but the theft could not be proven. It is said she has operated in Washington and other northern cities.

New York Stock Market. New York, Nov. 15, 11 a. m.—All through the first hour there was confident buying of stocks by interests not only concerned in the market movements, but in the management of many large corporations, and the tone was quietly confident.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," says R. S. Webster & Co., of Udon, Ontario, Canada. For sale by Gibson & Timberman and W. F. Creighton & Co.

Do not be deceived by counterfeits when you buy Witch Hamel Salve. The name of E. C. DeWitt & Co. is on every box of the genuine. OUTBREAK IN VLADIVOSTOK.

The upheaval in Russia following the promulgation of the reform manifesto has now reached Vladivostok and Yensik and other extreme points of the empire. At Vladivostok the condition of affairs is quite critical. A state of war has been declared.

Many persons have been killed, and the foreigners have taken refuge on the ships in the harbor. Many public buildings, stores and houses have been pillaged and set afire by the mob.

The American embassy has received from Consul Greener, at Vladivostok, details of the outbreak which began Sunday afternoon, immediately after the departure of the Russian armored cruisers Gromoboi and Rossia. The people who had gathered in great crowds in the streets became excited by inflammatory speeches. Many soldiers and sailors were also in an angry mood, having expected to go home with the squadrons.

The mob began to break windows and pillage, and in the evening set fire to the theater, the Golden Horn Hotel, to several blocks of Chinese buildings in the northern part of the city and to the officers' residences and other buildings in the eastern quarter. The fire burned all night. Seventy buildings were consumed. Troops were summoned to restore order and fired frequent volleys, killing many persons.

Just before the American Consul telegraphed yesterday the commandant of the fortress of Vladivostok, assisted by priests and the leaders of the workmen's organizations, addressed the mob, urging them to keep the peace, but the Consul said he feared the attempt would be in vain.

Mr. Greener added that 24 merchant vessels in the harbor were now crowded with inhabitants. The Consul was on board a steamer when he sent his dispatch, and he expects to remain there.

A later dispatch from Vladivostok says the Chinese quarter has been entirely destroyed, and that the uprising is now under control.

To Relinquish Lorraine.

Considerable discussion in diplomatic and political circles has been aroused by the serious publication in the Hamburg Correspondenz, well known for its close relations with the imperial chancellery in Berlin, of a proposition involving the exchange of the province of Lorraine with France for the latter's concession to Germany of Dahomey and the Cameroon Hinterland.

The article, which is generally believed to be an inspired one, proposes the abrogation of the treaty of Frankfurt, concluded after the Franco-Prussian war of 1870, in which Germany, wrested Alsace and Lorraine from France.

A new treaty is proposed between the two old national foes, to be based on the concession of Lorraine to France in consideration of the addition of the French possessions in Africa to Emperor Wilhelm's pet scheme of a German African empire.

It is known that the Emperor has long cast covetous eyes on the Cameroon Hinterland, bordering upon the German possessions in Africa adjoining Lake Tchad. Lorraine also has resisted Germanization more than any other of the provinces added to the German Empire. Its recession to France, it is pointed out, would get rid of that which Germany does not very much want for the acquisition of that which it strongly desires.

The proposed project is strongly advocated by the Franco-German League.

The Fox Hunters.

The American hounds won the decision over the English in the Grafton-Middlesex foxhound match, which concluded at Upperville, yesterday, after two weeks of sport. The decision was unanimous. The official award gave to Harry W. Smith, master, of Grafton, the \$2,000 stake and the Townsend trophy.

Yesterday morning's run was a factor in deciding the match, as the Grafton hounds ran for over two hours, and were called off the line only by the judge's order. No fox was killed during the match, and the decision of the judges was based upon the speed and trailing of the rival packs.

The Middlesex establishment will leave today for Boston. Yesterday morning was cold, snow and hail having fallen during the night. The meet of the Grafton hounds was held at Mountville and attracted only a small field.

The first covey was at Mountville, when three red foxes jumped in front of the pack. The hounds did not divide and went away after a fox over Step Top Hill, down the creek and through Utopia farm, where the pace became too hot and the field was thrown out.

Henry Wise Garnett, of Washington, came down hard over a rail fence yesterday morning, but escaped with bruises, although his horse fell on him.

Jefferson to the Czar.

President Edwin A. Alderman, of the University of Virginia, has received a historic relic of great interest and value, in the shape of a hitherto unpublished autograph letter of Thomas Jefferson. This letter was written while Jefferson was president in 1804 to Alexander the First, Czar of all the Russias, in acknowledgment of assistance rendered American sailors by Russian authorities.

As was the custom in communications between the heads of nations, the document included many cordial expressions of good will. A monger others is one sentence of special interest today in view of recent disturbances in Russia, in which Jefferson congratulates the Czar on his concessions in favor of freedom among his subjects. Jefferson goes on to say that such a wise and liberal policy will be productive of immense benefits to the Russian people.

This very interesting letter was sent to President Alderman by Robert S. McCormick, United States ambassador to Russia, who discovered it recently in St. Petersburg.

Saved by Dynamite.

Sometimes, a flaming fire is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her, so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At E. S. Leadbeater & Sons' drug store, price 50c and \$1.00, guaranteed. Trial bottle free.

Haynes vs Commonwealth. Argued by George D. Wise for the plaintiff in error and William A. Anderson for the Commonwealth, and submitted.

Cremons vs Commonwealth. Argued and submitted.

The other Commonwealth cases having been continued until the January term, the Commonwealth docket is through with until that term.

The next cases to be called are the American Can Company vs Commonwealth, and the Standard Oil Company vs Commonwealth, from the corporation commission cases, and the Singer Manufacturing Company vs Bryant, on the privileged docket.

Odell Accused.

Testifying before the Armstrong insurance committee in New York yesterday, James Hazen Hyde practically charged ex-Gov. Benjamin B. Odell, jr., of New York State, with having coerced the Mercantile Trust Company into paying \$75,000 in settlement of the Odell shipbuilding suit against that concern. Mr. Hyde accused Edward H. Harriman, Odell's friend, of having advised against the payment of this money.

He testified further that Edward H. Harriman had used the Equitable money in the notorious \$50,000,000 Union Pacific pool for the purpose of facilitating his control of that road, and that Harriman, together with Henry C. Frick, conspired by means of the report of the Equitable's self-investigating committee to obtain control of the Hyde majority stock in the Equitable.

Mr. Hyde also testified that the Equitable contributed \$50,000 to the republican national committee in the last campaign—\$25,000 through Mr. Frick—and that during the campaign near Mr. Frick, Mr. Harriman, Jacob H. Schiff, Senator Dewey and others used their influence to have Mr. Hyde appointed Ambassador to France.

Former Governor Odell has requested Chairman Armstrong, of the insurance investigating committee, to call him as a witness.

WEDNESDAY EVENING, NOV. 15, 1905.

Isle of Pines Secedes.
Two hundred and sixty American resi-
dents of the Isle of Pines have seceded
from Cuban control. They held a meet-
ing, elected their own officers, and de-
clared that the island is a territory of
the United States. They will send a
delegate to Washington to inform the
government of their action, and try to
prevent ratification by the Senate of the
treaty ceding the sovereignty of the is-
land to Cuba.
Mass meetings were held under the
name of territorial conventions, and of-
ficials were appointed to fill all positions
except those that must be named by the
President under the constitution of the
United States. The officers of the new
territory are: T. B. Anderson, secre-
tary; James M. Steere, treasur-
er; E. C. Ryan, delegate to Congress;
A. T. Friese, chief justice; David B.
Wall, sheriff.
The convention divided the island into
five districts and ordered elections to
be held yesterday to select members of
the legislature, which is to convene next
week, tax assessors, and collectors. One
ticket was named in each district, the
only political question being to keep the
island under the Stars and Stripes. The
election proceeded in an orderly manner
under the supervision of law, the men on
the different tickets announcing that they
will take office immediately without re-
gard to those serving under the Cuban
government.

Little Rescuers Killed.
Kingston Blauvelt, aged six, and
Abraham Diamond, aged five years, of
Jamaica, L. I., lost their lives yester-
day in saving the life of a little girl who
was in danger of being run down by a
railway train at a grade crossing. The
gate had been lowered for the passage
of the train, but a band of little school
children crawled beneath it. The fore-
most of these was a little girl, who had
just reached the rails as the engine was
bearing down upon her. She did not
heed the warning shouts of the gate-
man or the cries of her playmates, but
deliberately ran into the danger. To save
her the Blauvelts and the Diamond boys
rushed forward and shoved her across
the track and to safety, but there was
not time for them to cross or retreat,
and they fell beneath the wheels. Dia-
mond lost both legs and an arm and
Blauvelt sustained a fracture of the
skull. They were taken to a hospital,
where both died a few hours later.

A Creeping Death.
Blood poison creeps up towards the heart,
causing dizziness, J. E. Stearns, Belle Plaine,
Miss., writes that a friend dreadfully in-
jured his hand, which swelled up like blood
poisoning. Buckle's Arnica Salve drew out
the poison, healed the wound, and saved his
life. Best in the world for burns and sores.

Herb W. Edwards Injured.
Herb W. Edwards, of Des Moines,
Iowa, got a fall on an icy walk last win-
ter, spraining his wrist and bruising his
knees. "The next day," he says, "they
were so sore and stiff I was afraid I
would have to stay in bed, but I rubbed
them well with Chamberlain's Pain
Balm and after a few applications all
soreness had disappeared. I feel that
this bottle of Pain Balm saved me sev-
eral days' time, to say nothing of the
suffering." This liniment is for sale by
Gibson & Timberman and W. F.
Creighton & Co.

Let Common Sense Decide
Do you honestly believe, that coffee sold loose (in bulk), exposed
to dust, germs and insects, passing
through many hands (some of
them not over-clean), "blended,"
you don't know how or by whom,
is fit for your use? Of course you
don't. But

LION COFFEE
is another story. The green
berries, selected by keen
judges at the plantation, are
skillfully roasted at our fac-
tories, where precautions you
would not dream of are taken
to secure perfect cleanliness,
flavor, strength and uniformity.

From the time the coffee leaves
the factory no hand touches it till
it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.
Millions of American Homes welcome LION COFFEE daily.
There is no stronger proof of merit than continued and increas-
ing popularity. "Quality survives all opposition."
(Sold only in 1 lb. packages. Lion-head on every package.)
(Save your Lion-heads for valuable premiums.)
